Partner Across the UAE**

About Us

WHO WE ARE AND WHAT WE DO

Established in 2015, Firecon Fire Fighting Equip Maint & Fixing L.L.C. has grown into one of the UAE's trusted providers of comprehensive fire protection, fire safety, and life safety solutions. Headquartered in Ajman, we proudly serve residential, commercial, industrial, and government sectors across the United Arab Emirates. Our expertise spans the design, supply, installation, testing, commissioning, inspection, maintenance, and repair of complete fire protection systems. Every solution we deliver is designed to safeguard lives, protect valuable assets, and ensure compliance with UAE fire safety regulations and internationally recognized standards. Whether it is a residential building, commercial complex, industrial facility, warehouse, manufacturing plant, or high-risk infrastructure, our experienced engineers and technicians provide reliable, efficient, and cost-effective fire protection solutions tailored to every client's requirements.

Our Vision

To deliver innovative, reliable, and high-quality fire protection solutions that safeguard lives, property, and business continuity while exceeding customer expectations through professional service and technical excellence.

Our Mission

To become one of the UAE's most trusted and respected fire protection companies by delivering world-class safety solutions, continuous innovation, and exceptional customer satisfaction.

Why Choose Firecon?

- Established in UAE since 2015
- Experienced and qualified engineering team
- Complete fire protection solutions under one roof
- High-quality products from trusted manufacturers
- Reliable installation, maintenance, and repair services
- Fast response and customer-focused support
- Competitive pricing without compromising quality
- Commitment to safety, compliance, and customer satisfaction

Our **Services** Overview

FIRE DIVISION

- Fire Alarm Systems
- Fire Fighting Systems
- Fire Pumps
- Sprinklers
- Deluge Water Spray System
- Gaseous Fire Suppression System
- Hydrants
- Fire Extinguishers
- Fire Hose Reel System
- Emergency Lighting
- AMC

LPG DIVISION

- LPG Central Gas Systems
- LPG Manifold Systems
- LPG Piping
- LPG Storage Tanks
- Gas Leak Detection
- Maintenance
- Annual Service

Fire Division

We provide complete fire protection solutions designed to detect, control, and extinguish fire hazards effectively, ensuring safety for people, property, and the environment.

Fire Alarm

Advanced fire detection and alarm systems that provide early warning and help ensure quick response to fire emergencies.

Fire Pump

Reliable fire pumps designed to deliver consistent water pressure and flow for effective firefighting operations.

Sprinkler

Automatic sprinkler systems that detect heat and discharge water to control or extinguish fires at the earliest stage.

Fire Extinguisher

High-quality portable fire extinguishers suitable for various fire types and environments.

Fire Hydrant

Internal and external hydrant systems that ensure a readily available water source for firefighting when it's needed most.

Hose Reel

Hose reel systems provide a continuous and reliable water supply for firefighting in the initial stages of a fire.

Emergency Lighting

Emergency lighting solutions that illuminate escape routes and critical areas during power failures or emergencies.

LPG SOLUTIONS

SPECIALISTS

We deliver safe, efficient, and reliable LPG system solutions designed to meet the highest industry standards. Our systems ensure optimal performance, safety, and peace of mind.

LPG TANK

High-quality storage tanks designed for safe and efficient storage of LPG, built to comply with international safety standards.

GAS PIPING

Precision-engineered gas piping systems using approved materials to ensure safe, leak-free and long-lasting performance.

GAS MANIFOLD

Reliable manifold systems for smooth distribution of LPG, ensuring consistent pressure and operational safety.

GAS DETECTION

Advanced gas leak detection systems that provide early warning and enhance safety for people and property.

PRESSURE REGULATOR

High-performance regulators that maintain optimum gas pressure for safe and efficient gas utilization.

CONTROL PANEL

Smart control panels for monitoring and controlling gas systems with enhanced safety and ease of operation.

WE SERVE ACROSS

COMMERCIAL

RESIDENTIAL

INDUSTRIAL

Industries We Serve

We provide reliable and innovative fire and gas safety solutions tailored to meet the unique needs of every industry.

Residential Buildings

Safe and efficient fire & gas safety solutions for apartments and residential complexes.

Villas

Customized safety systems to protect villas and private properties.

Hotels
